TEAM CONTRACT

Is it acceptable for one or two team members to do more work than the others in order to get the team an A?

The expectation is that we put in as much time we typically put into the psets each week, and will assess our progress from there.

How will you use the in-class time?

Currently, we plan to use at least 30 minutes for discussion of progress and design choices. We presume the TA check-in will take 10-15 minutes. The rest of the time could be for working on implementation together.

How will you communicate outside of meetings?

Our primary method will be FB Messenger. For longer messages, email will do.

How will work be divided among team members?

	Parsing & AST	Sound Playback	Lyrics Streaming
Specs	Matt	Satvat	Hutch
Tests	Hutch	Matt	Satvat
Code	Satvat	Hutch	Matt

**May be subject to change

Where will you record who is responsible for which tasks?

We will use a Google Document to keep track of tasks.

Other

We will use a google spreadsheet to keep track of taskings and meetings

We all live in MacG, so meeting in MacG is easy.

We will have at least two outside of class meetings, more may be added if needed.
